

Big-bore hoses

Application possibilities:

Big-bore hoses are made of high-quality, synthetic special-rubber compounds. They are manufactured on state-of-the-art, electronically controlled large-hose units.

The various production technologies guarantee an absolutely uniform product quality.

An overriding quality assurance system to DIN EN ISO 9001 : 2000 monitors the production process throughout. These hoses are used wherever high quality and long service life are per se prerequisites for the efficient transport of all types of products.

Typical application possibilities are to be found particularly in offshore technology, in material handling, large-tank units, the ironworks industry, mining and the building trade.

We manufacture these hoses to the customer's specific requirements, with inside diameters of 80 mm to >1200 mm.

Kindly send us your detailed inquiry!

Applications:

- ▶ Wastewater hoses
- ▶ Concrete- and cement-handling hoses
- ▶ Bunker hoses (light- and heavy-weight types)
- ▶ Sewage hoses
- ▶ Fish pump hoses
- ▶ Liquid gas hoses (e.g. for butane, propane)
- ▶ Granulate transport hoses
- ▶ Industrial hoses (general)
- ▶ Cooling hoses for industrial plants
- ▶ Compressed air hoses
- ▶ Oxygen hoses
- ▶ Sludge hoses
- ▶ Floating hoses
- ▶ Spiral hoses (general)
- ▶ Underwater hoses

Big-bore hoses

Socket ends and flange dimensions

The dimensions of the expanded socket ends are manufactured to your specifications.

Flange dimensions are matched to the required connections.

Connections

Big-bore hoses can be manufactured in the requisite dimensions and with the desired connection to satisfy operating conditions of all kinds. ContiTech offers the following connection types

- 1 Straight socket ends
- 2 Expanded socket ends
- 3 Steel nozzle and flange fastened with clamps
- 4 Hose with clamp fittings
- 5 Steel nozzle, concealed attachment, vulcanized in, with lining drawn through
- 6 Steel nozzle, concealed attachment, vulcanized in, without lining drawn through
- 7 Special rubber flange
- 8 Compact systems
- 9 Steel cone flange with clamp, lining drawn through
